

Gergő Buglyó

Front-end developer

Personal details

Name	Gergő Buglyó
Email address	gergobuglyo@gmail.com
Phone number	+3630/501-2959
Linkedin	linkedin.com/in/gergobuglyo
Portfolio	gergobuglyo.com

A Self-taught Front-end Programmer who is motivated to learn new skills and take on new challenges at the next level of his web development carrier.

I started my career as a civil engineer. About two years ago, I decided to take a new direction in my career, I started my learning journey in web development. I acquired the basic tools of web development through my own projects, such as HTML, CSS, Bootstrap, JavaScript, and I've done some projects with React. Projects in the "Technical Projects" section helped me to strengthen and enhance my knowledge.

Skills

HTML | CSS | Bootstrap | JavaScript | React | NodeJS | WebRTC | Express | MongoDB

Technical Projects

[Random user generator](#)

An application that allows its users to generate random users with filters.

Built using HTML, Bootstrap, React and randomuser.me API.

[Skype clone application](#)

Skype clone application, to create a connection between two users.

Built using HTML, CSS, React, NodeJS, Express, WebRTC.

[Mastermind game](#)

Code-breaking game in a web application.

Built using HTML, CSS, JavaScript.

[Trivia quiz application](#)

Simple multiple-choice quiz application.

Built using HTML, CSS, JavaScript and trivia quiz API.

[Car list Rest API](#)

Simple Rest API project. There are three branches. First version used plain NodeJS. In the enhanced version the express framework was implemented and finally the database was stored in the MongoDB database.

Built using NodeJS, Express, MongoDB.

Education

- 2021 -2022 Online Web Development Bootcamp
[Programozaskarrier.hu](https://programozaskarrier.hu) – bootcamp and mentoring programme with high quality mentors
- 2016 - 2017 Pannon Education Center
Secondary degree, Occupational Safety and Health Technology
- 2009 - 2014 University of Pécs Faculty of Engineering and Informatic Technology
Bachelor of Engineering, Graduated as a Civil Engineer

Employment

Throughout my career and studies as a civil engineer, I have learned the basics of engineering thinking and I've picked up some useful skills that I can use in my future career as a web developer, such as: working independently and in a team, agility, responsibility and perseverance.
